SUMMARY

Frontend Developer with 1+ year of professional experience building scalable web applications using React.js, Next.js, TypeScript, Tailwind CSS, Zustand, and React Query. Experienced in API integration, real-time applications, performance optimization, and responsive UI development. Built full-stack projects using Node.js, Express.js, and MongoDB, and currently expanding expertise in PostgreSQL and modern backend technologies. Passionate about creating high-quality user experiences and continuously improving engineering skills.

WORK EXPERIENCE

Frontend Developer, Huzl.in, Remote

October 2024 - April 2026

- Contributed to building a freelance platform, developing user-friendly interfaces and improving platform performance.
- Collaborated with the development team to integrate new features and ensure seamless functionality.
- Collaborated with backend developers to integrate APIs, enhancing platform performance and user experience.
- Conducted regular testing and debugging of features, identifying and resolving issues, which increased platform stability by 20%.
- Participated in sprint planning meetings and provided feedback on user requirements, ensuring alignment with business goals.

ME(A)RN Stack Intern , Luminar Technolab , Calicut

Aug 2023 - March 2024

- Developed dynamic web applications using the ME(A)RN stack.
 - Improved workflow efficiency and software quality through innovative solutions and thorough testing.
 - Participated in Agile processes, enhancing project completion and team productivity.
-

SKILLS

Frontend

React.js • Next.js • TypeScript • Tailwind CSS

Backend

Node.js • Express.js • REST APIs

Database

MongoDB • PostgreSQL (Learning)

State Management

Zustand • React Query • Redux Toolkit

Tools

Git • GitHub • Postman

PROJECTS

1-Aurix-E Commerce

[Github Repo](#)[Demo](#)

Duration: 05/2026-06/2026

Description: Built a full-stack e-commerce platform with secure authentication, product management, cart and wishlist functionality, order tracking, and responsive user experience.

- **Tools Used:** Next.js, TypeScript, Node.js, Express.js, MongoDB, Zustand, React Query, Tailwind CSS, ShadCN UI, JWT Authentication.
- **Key Features:**User authentication and protected routes,Product listing,filtering, sorting, and search,Wishlist and cart management,Order placement and tracking,Responsive mobile-first UI,State management using Zustand and React Query

2-Youtube-Clone

[Github Repo](#) [Demo](#)

Duration: 09/2024 - 10/2024

Description: Developed a full-fledged YouTube clone replicating essential features by integrating youtube v3 Api including live video streaming, real-time chat, and search suggestions with debouncing.

- **Tools Used:** Frontend: React, Redux for state management, React Router
- Styling: Tailwind CSS

Key Features:Live Video Streaming, Live chat viewing for live videos, Display the real comments for the comment section.

3-Real Time Chat App

[Github](#) | [Live Link](#)

Duration: 05/2024-06/2024

Description: Built and deployed a real-time chat app with MERN stack and Socket.io for instant messaging. Features include user authentication, message persistence, and online/offline status indicators. Live on Render, code on GitHub.

Key Features: Real-time messaging with **Socket.io**, User authentication and authorization, Online/offline status indicators, Responsive design and user-friendly interface

EDUCATION

BSc Computer Science University of Calicut, MHES College Of Science And Technology GPA:5.80 Duration: 2020 - 2023	Higher Secondary (12th) MMHSS - Thalassery Biology Science, Percentage:74% Duration: 2018 - 2020	SSLC NAMHSS - Peringathur Board : KBPE Percentage:97.5% Duration: 2017 - 2018
