

HAMDAN

FRONTEND DEVELOPER

📍 Azhiyur, Vadakara, 673309 📞 +917994969074 ✉ hamdanzbr46@gmail.com

 [Linkedin](#) |  [Github](#)

SUMMARY

Aspiring Frontend Developer with nearly one year of experience, including a 6-month internship at Luminar Technolab and a current role at Huzl. Skilled in building responsive, user-friendly web applications using modern tools and frameworks such as React, Redux, Zustand, and React Query. Proficient in API integration with Axios and implementing advanced techniques like interceptors to optimize application performance. Passionate about learning and applying best practices in frontend development to deliver seamless user experiences.

WORK EXPERIENCE

Frontend Developer, Huzl.in, Remote

October 2024 - Present

- Contributed to building a freelance platform, developing user-friendly interfaces and improving platform performance.
- Collaborated with the development team to integrate new features and ensure seamless functionality.
- Collaborated with backend developers to integrate APIs, enhancing platform performance and user experience.
- Conducted regular testing and debugging of features, identifying and resolving issues, which increased platform stability by 20%.
- Participated in sprint planning meetings and provided feedback on user requirements, ensuring alignment with business goals.

ME(A)RN Stack Intern , Luminar Technolab , Calicut

Aug 2023 - March 2024

- Developed dynamic web applications using the ME(A)RN stack.
- Improved workflow efficiency and software quality through innovative solutions and thorough testing.
- Participated in Agile processes, enhancing project completion and team productivity.

SKILLS

Technical Skills	Professional Skills
• Front-End: React Js, Angular Js, Html, Css, JavaScript • State Management: Redux, Zustand and React query • React Testing with jest and testing library • Version Control Systems (Git) • RESTful API Design and Development • Responsive Web Design	• Problem-solving and Critical Thinking • Collaboration and Communication • Time Management • SDLC Methods • Agile Methodologies • Continuous Learning and Adaptability • Ethical Ai Practices • Project Management • Attention to Detail

PROJECTS

1-Youtube-Clone

 [Github Repo](#)  [Demo](#)

Duration: 09/2024 - 10/2024

Description: Developed a full-fledged YouTube clone replicating essential features by integrating youtube v3 Api including live video streaming, real-time chat, and search suggestions with debouncing.

- **Tools Used:** Frontend: React, Redux for state management, React Router
- Styling: Tailwind CSS

Key Features: Live Video Streaming, Live chat viewing for live videos, Display the real comments for the comment section.

2-Employee Management System

 [Front-end](#) | [Back-end](#) |  [Live Link](#)

Duration: 11/2023 - 01/2024

Description: Developed a full-stack web app using the MERN stack for employee data management.

Tools: MongoDB, Express.js, React.js, Node.js, React Bootstrap

Key Features: User authentication, employee record management, responsive UI, profile picture upload

Responsibilities: Frontend design, backend logic, MongoDB integration, cross-browser compatibility

3-Real Time Chat App

 [Github](#) |  [Live Link](#)

Duration: 05/2024-06/2024

Description: Built and deployed a real-time chat app with MERN stack and Socket.io for instant messaging. Features include user authentication, message persistence, and online/offline status indicators. Live on Render, code on GitHub.

Key Features: Real-time messaging with **Socket.io**, User authentication and authorization, Online/offline status indicators, Responsive design and user-friendly interface

EDUCATION

BSc Computer Science University of Calicut, MHES College Of Science And Technology GPA:5.80 Duration: 2020 - 2023	Higher Secondary (12th) MMHSS - Thalassery Biology Science, Percentage:74% Duration: 2018 - 2020	SSLC NAMHSS - Peringathur Board : KBPE Percentage:97.5% Duration: 2017 - 2018
